

I want to be able to make decisions with a variety of information sources. The major sources of communications are all owned by corporate media and have the same focus/message. I want a variety of opinions and approaches so I can make up my own mind. I don't want someone else making up my mind for me and I feel that is exactly what is happening presently. Consolidation is not serving this democracy. It serves private interest. Please listen to the people on this issue before we lose all faith in our "system" which I feel has sustained free thought in this country for a long time. Let's not give this up to private interests. Thanks you
